

Info!

Thanks for downloading my theme! Are you ready for the eXperience? This theme is a fully remastered port of the Windows XP theme suite for Windows 7,8,10 & 11. All styles that were released for Windows XP have been ported and updated to work almost perfectly but with some improvements.

Important!!!

There are 2 Windowblinds files included with this zip; eXperience8 & eXperience11. It is important that to apply the right WBA file to your system for the optimal look. Using windows 10/11 one on 7/8 will cause the taskbar to shrink. So, make sure you use the correct theme supplied for your chosen OS.

- eXperience8: For users that use windows 7 & 8 machines
 - eXperience11: For users that use Windows 10 & 11 machines
-

Changelog

What's new in V2?

- 2 new substyles "Windows XP Beta" & Windows XP Classic
- Support for Start11 Windows 10/11 Menu modes
- Adjusted the caption buttons to be tighter and closer to the right of the titlebars
- Multi monitor taskbars for Windows 10 & 11 WBA theme have a background now for the taskbar clock.
- Support for Windows 11 tabbed file explorer
